

WonderFULL lips

3D Lip Therapy

Protection, moisturizing and fuller lips!

3D Lip Therapy provides cumulative action of ha- filler and lipo filler.

Hyaluronic acid Vecticell™ increases the volume of lips.

Voluform™ stimulates the production of collagen, emphasizes lip red and reduces wrinkles around the lips.

Regular use of products gives the effect of „3D lip plumper“: increase the volume of the lips, firmness and elasticity.

The line is especially recommended for a daily lip care, before or after lip filling and permanent make-up procedure.

Indications:

- increasing the volume of the lips
- moisturizing
- prevention of anti aging lips
- protection of the lips against wind, sun and frost
- before and after lip filling procedures
- before and after permanent make-up procedures

Active substances:

Vecticell™ HA

- filler effect
- retains water, giving the effect of bigger lips
- pharmaceutical quality
- hyaluronic acid encapsulated in carriers with deformable shells
- small particle 120 nm, 3 kDa

Voluform™

- gives the lipofiller effect
- stimulates collagen production
- increase the volume of the lips
- fills wrinkles around the lips
